Mike,

Hope you enjoyed a fun SB weekend.

Please see correspondence below. I hope I messaged that o.k.

Carrie indicated that a RI/FS report is expected in Feb. I thought that was going to be 2020/2021? Maybe she is referencing another report?

I'll give you a call later to touch base. Thanks Mike!

Hi Carrie, thanks for your message. The remedial investigation of the CFAC site is ongoing. No

freeze or pause.

I am not sure when the RI/FS report is expected. I will look into that and get back to you.

Robert,

Does the EPA freeze/gag order impact the RI/FS report expected in February for the CFAC site in Columbia Falls, MT?

Thank you.
